

GreenForm Counter

Pioneers in smart **Green** display solutions.

GreenForm presents environmentally friendly ad solutions by creating A signs from a sustainable cardboard material.

We are creating Green and practical solutions. Mobility is important to us, therefore, most of our products are easily foldable for ease of transport. By making it fold down easily, you can transport it with less Co2.

We think beyond the impact of manufacturing; we also consider how our customers will use the products.

Discover our elegant but Green products created 16 mm cardboard material.

We have created a very exclusive product that can be folded down.

Counter - normal

Counter - white tone

GreenForm Counter

GreenForm's 16 mm display table is designed with both aesthetics and durability in mind.

We understand that an active trade show environment can be challenging for materials, and therefore we have developed a display table that is as practical as it is elegant.

Should an accident occur, and your display table is bumped or damaged, we have a unique concept ready: you can easily purchase individual spare parts for the display table. This means that you only need to replace the parts that have been damaged, ensuring that your display table always looks in top condition.

By offering this solution, we emphasize our commitment to sustainability and long-term value - by extending the life of the display table and at the same time minimizing waste.

Dimensions

| | |
|--------|---------|
| Depth | 56 cm |
| Width | 119 cm |
| Height | 100 cm |
| Weight | 8,52 kg |
| Co2 | 52 kg |

GreenForm

Denmark has been a front runner in **Green** transformation with a large role in Wind energy. Therefore, we see the opportunity to continue to use our knowledge from Scandinavia in producing greener solutions and bringing them into the international market.

We have possibly found the best in the industry in manufacturing **Green** material and work closely in our R&D to invent tomorrow's **Green** solutions. We work tirelessly on making GreenForm available worldwide in a responsible manner. Join our movement.
